

CONCRETE SEALANT

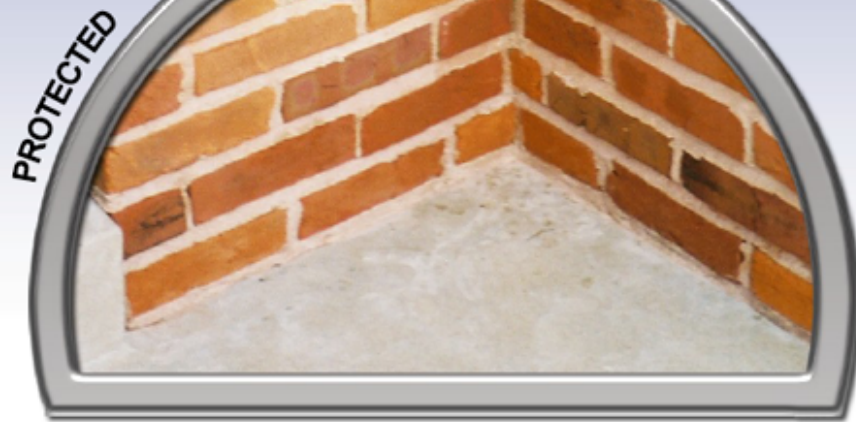

It's not a topical surface sealant!

DynaCrete™ products have been developed and tested in heavy industrial environments to extend the life of concrete surfaces. DynaCrete™ products produce a PERMANENT, invisible, internal membrane below the surface of your concrete, permanently waterproofing, vapor proofing and doubling the hardness of your concrete surfaces.

ADVANTAGES:

- One time application
- Easier clean up of oils, grease or acids
- Reduce damage from abrasion, freeze-thaw spalling and pressure washing
- NON-toxic, eco and environmentally friendly
- Limited THIRTY YEAR WARRANTY

Concrete Sealants
are permanent!

Waterproofs, Reduces the effects of chloride (salt) by 63%, dramatically slows the penetration of grease, oil and acids, Hardens, and reduces wear from abrasion, Doubles the hardness of concrete, and increases the bond of secondary coatings up to 300%.
